LITHIUM (*rechargeable*) BATTERY HANDLING & FEES

Lithium batteries pose serious safety risks and hazard concerns when handled improperly.

Examples of where you may find lithium rechargeable batteries:

LAPTOPS
E-BIKES

POWER TOOLS
ELECTRIC MOWERS

CELLPHONES
SMART WATCHES

VAPES
TABLETS

To prevent unintentional fire hazards, customers must follow these procedures to help ensure the safety of staff, drivers, and equipment.

1. Isolate items in a box/container and place them at the back of the load (closest to the door)
2. Notify the ABW Office when scheduling a pickup! We will need to know what the items are and where to locate them within the container.

An additional fee of \$30.00 per battery will apply for any lithium rechargeable batteries not isolated or disclosed at the time of the service.
